**SkyLeather is a
synthetic leather manufactured
by AUTOSTOP AVIATION**

The high elasticity of **SkyLeather** simplifies the fitting process, even for complex seat shapes. The seat cover stays in the same shape and therefore looks new for longer.

Manufacture

Our seat cover manufacturing facility is located adjacent to the **SkyLeather** production facility, allowing increased efficiency by eliminating transportation costs to the manufacturing unit.

Airline cost savings

Compared to leather hides, our synthetic **SkyLeather** is up to 25% lighter. This contributes to airline operators fuel saving initiatives.

COLOURS

Our **SkyLeather** is available in a range of grains, finishes and colours.

AUTOSTOP AVIATION has developed a standard colour pallet, but can match any colour to suit customer needs.

Synthetic leather factory.

SkyLeather

SkyLeather is an ingenious alternative to reconstructed leather, and genuine leather. This innovative material offers advantages in aircraft seat maintenance and also stands out with regard to passenger well-being.

EASY CLEAN

The surface of **SkyLeather** is highly dirt / grime repellent, which reduces the cleaning effort. Ball-point pen marks and stain residues can be simply wiped away with a moist cloth.

EASY CLEAN

SkyLeather is flammability compliant with both EASA CS and FAR 25.853[a] for our range of synthetic leather.
